Karim is a 1st Year Bac student who used to spend most of his free time playing video games. Last month, his class visited a local NGO that helps homeless families in his city, and the experience changed him. He was reading an article about pollution when he decided to join an environmental club at school. Now he must recycle at home, and he doesn't have to be told twice — he does it happily. Yesterday, he was cycling to school when he saw his teacher, who was walking to the same NGO to volunteer.
