	Duration: 30 min	Units: 8–9
	Class: _____	Student: _____ N°

Dr. Amina works for the WHO, an organization that was founded in order to maintain global health standards. She often says, "I wish I had more time to conduct research," because her days are filled with meetings about international cooperation. Last year, her team made a major breakthrough: they discovered a new treatment that could help millions of people. Moreover, her research is now being used by UNICEF to help children in developing countries access better healthcare.
